

SYPHILIS ANTIGENS

	Cat. #	Product Name and Description	Tag
1	ASIF 101	Tp p17 <i>E. coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p17	β-galactosidase + 6 His
2	ASIF 102	Tp p41 <i>E. coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p41	β-galactosidase + 6 His
3	ASIF 103	Tp p47 <i>E. coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p47	β-galactosidase + 6 His
4	ASIF 105	Tp TmpA, mosaic <i>E. coli</i> derived mosaic protein recombinant contains immunodominant regions of <i>Treponema pallidum</i> p41	GST
5	ASIF 905	Tp p15 <i>E. coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p15	6 His
6	ASIF 906	Tp p17 <i>E. coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p17	6 His
7	ASIF 907	Tp p41 <i>E. coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p41	6 His
8	ASIF 908	Tp p47 <i>E. coli</i> derived protein recombinant contains immunodominant region of <i>Treponema pallidum</i> p47	6 His
